USB On-The-Go (OTG) is a technology that allows USB devices (digital audio players, mobile phones, PC tablets, etc.) to act as servers. In other words, it allows you to connect USB peripherals (USB memory and hard drives, mice, keyboards, etc.) directly to devices with built-in OTG USB technology without having to use a computer as an intermediary.
The cable offers up to 3 amps of charge , Which can be used to charge your mobile device, tablet, laptop etc.
Data transfer rate up to 480Mbps.
Compatible with ports with Thunderbolt ™ 3.
The Type-C USB connector is easier to use than previous generation USB connectors. Its reversible design allows you to connect devices with either face up. Always insert the cable correctly, without mistakes or causing damage to the port.
