USB 3.2 Gen1 Extension Cable with Amplifier, USB-C/M to USB-C/F, 5 m

Product Code:
10.01.1311

EAN:
8433281015333

Description:
USB 3.2 Gen1 extension cable with a USB-C male connector on one end and a USB-C female connector on the other.

Especifications:
Includes an amplifier in the USB-C female connector to boost the USB signal. An ideal solution for extending the connection between USB-C devices such as laptops, printers, or external hard drives without signal loss or reduced transfer speed. This active cable, with an integrated amplifier, ensures data transfers up to 5 Gbps—10 times faster than USB 2.0—and delivers up to 770 mA of power without the need for an external power source. Allows the extension of USB-C cables beyond 5 meters by connecting multiple extension cables with amplifiers. Its reversible connector ensures error-free connection on both ends. No software or drivers required – fully plug and play. Backward compatible with USB 2.0/1.1/1.0 versions. NOTE: This product does not support video transmission. Length: 5 m Color: Black Standards: RoHS Functionality Test: 100% tested
